Desired delivery date :

Characteristics of the sampler

**Please send us drawing of reactor, if possible*

1. Maximum available height **h1** : mm
2. *Diving depth **h2** : mm
3. Connection **B** : DN / Size
 DIN ANSI PN / Class
 JIS
4. *Material : 316L / 1.4404 PFA lined
 other
5. Valve opening and closing method :
 Spring to close hand wheel (Magic wheel)
 Spring to close hand lever Pneumactical actuator
6. Heating / cooling jacket Yes No
7. Temperature sensor Yes No
8. pH measurement kit Yes No
9. Stream baffle integrated With Without

Characteristics of the product, sampling, analysis

10. Chemical composition :	Formula <input style="width: 50%;" type="text"/>		
11. *Working conditions :	Pressure <input style="width: 50px;" type="text"/>	<input type="radio"/> barg <input type="radio"/> mPa-s	Temperature <input style="width: 50px;" type="text"/>
			<input type="radio"/> °C <input type="radio"/> °F
12. Other :	*Viscosity <input style="width: 50px;" type="text"/>	<input type="radio"/> cP	
	Solidification temperature <input style="width: 50px;" type="text"/>	<input type="radio"/> °C <input type="radio"/> °F	
13. Particles in suspension :	<input type="radio"/> No <input type="radio"/> Yes	Density <input style="width: 50px;" type="text"/>	% Size <input style="width: 50px;" type="text"/> mm
14. Toxicity of the product :	<input type="radio"/> Not toxic <input type="radio"/> Low (better not to be exposed)	<input type="radio"/> High	<input type="radio"/> Deadly
15. Can the product come into contact with the atmosphere ?	<input type="radio"/> Yes <input type="radio"/> No		
16. Does the product solidify when in the receptacle ?	<input type="radio"/> Yes <input type="radio"/> No		
17. Required volume of sample :	<input style="width: 50px;" type="text"/> ml
